

## Visiting Avon Valley

### My visual guide

I might have to queue and music will be playing at the entrance to the park.

When I come into the park I can look at the board to see what is happening that day. Some activities are closed depending on the weather and time of year.

Sometimes the park will be busy and noisy. There are speakers around the park where music and announcements are played. It is easy to move away from the speakers and crowds to quieter areas of the park. I might hear trains and peacocks making sudden noises while I am at Avon Valley.

I can have lots of fun in the indoor play barn.

The play barn can get busy and loud. If I feel overwhelmed I can go outside and come back later.

I can play outside

Sometimes there will be events happening in the park.

Events can be busy and loud, but they are also fun.

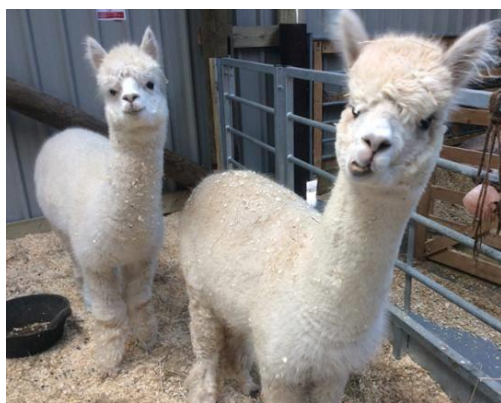

I might see mascots like Felix the Fox & park rangers.

If I need help I can speak to a member of staff.

There are lots of animals to meet at Avon Valley.

I can get food from the Café.

Or I can eat my own picnic at one of the picnic areas.

There are lots of places to wash my hands or get water in the park.

I can see some very big dinosaurs at Dinosaur Valley. They are still and then move and make loud noises.

I might be able to go on a train ride at Avon Valley

In the summer I can do the riverside walk where there is lots of space.

The toilets are near the park entrance and they do have hand dryers that can be loud.

When it is time to go home I exit the park through the shop. This is also where I can find the First Aid room if I need it.
